Tours

Most of the ancient historical events of China occur around Henan province. This is where ancient civilization starts. Being in the middle of China, this is why it is called 中原. Most of the ancient capitals are within Henan, like Luoyang 洛陽 (九朝之都). Numerous minor historical sites in Henan. Please check the website for tours by the official tourist agency.

Within the city -- 河南博物院

Suburb -- 黃河遊覽區

Day tours -- 嵩山少林寺 (登封). 龍門石窟(洛陽) a World Heritage Site, one of the 3 best grottos in China. 開封 (清明上河園,包公園).

Within Henan – 雲台山 (焦作市) to the northwest. 殷墟甲骨文,紅旗渠 (安陽市) to the north.

Attractions

Zhengzhou, as an outstanding tourist city and one of the eight Chinese ancient cities, is always the first destination of any Henan tour. Located between the upper and middle reaches of the Yellow River, this ancient and lively city is the cradle of the splendid culture of the Chinese Nation. Here we base our Yellow River Tour. Mt. Song - one of the Five Famous Mountains in China, sits in Northwestern Dengfeng, Zhengzhou City. Mt. Song Tour with Shaolin Kung Fu performance is another popular tour in Zhengzhou. Additionally we recommend the Downtown Tour which focuses on some memorial, museum and historical sites. Now we will introduce the three tours in a little more detail.

Yellow River Tour (Zhengzhou Sect)

The best place to experience the culture of the **Yellow River** is the [Yellow River Scenic Area](#) in Zhengzhou. It is about 30 kilometers (18.6 miles) northwest of Zhengzhou, situated on the southern bank of the Yellow River. There are green lands, clear waters, pavilions, scattered statues with interesting histories, inside the scenic area. With more than 20 years of development, the scenic area is now a national tourist destination with modern amusement facilities, which appeals to thousands of tourists from all over the world. Zhengzhou Yellow River Scenic Area is the ideal viewpoint to appreciate the mother river of China.

Mt. Song Tour

As one of the Five Famous Mountains in China, there is no need to say more about the beauty of [Song Mountain](#) . If you visit one mountain in Henan, make it this one for its charming natural views and its fame.

[Shaolin Temple](#) is situated in the west foothills of Song Mountain. At the mention of Shaolin Temple, tourists mostly think of Shaolin Kung Fu, and it is true that you can appreciate wonderful performances here. Another place worth a visit near Shaolin Temple is the Pagoda Forest. There are about 250 different pagodas which are the graves of every abbot of Shaolin Temple from Tang Dynasty (618 - 907) till the last. The constructions, reflecting the architectural styles of every dynasty, are now the treasures for studying Chinese ancient brick architecture and the art of engraving.

Also, one of the four Academies of Classical Learning in Song Dynasty (960 - 1279) - **Songyang Shuyuan**, and the **Astronomical Observatory** are both worth a visit.

Downtown Tour

Er' Qi (meaning 'July 2nd') Square, located in the center of the downtown area, is the busiest commercial area in Zhengzhou and even Henan Province. There are many department stores and restaurants, which should not be missed. The most eye-catching architecture on the square is the central **Er' Qi Memorial Tower** which commemorates a strike that happened on July 2nd, 1923. To get to the square from Zhengzhou Railway Station take Bus Nos. 2, 6, 32 or 34 and get off at Er' Qi Guangchang Stop.

Shang Ruins, the largest and the most well-preserved site of the capital city in early Shang Dynasty (16th - 11th century BC), is located in the Zhengzhou downtown area. It is more ancient than the [Yin Ruins](#) in Anyang. Covering an area of about 25 square kilometers (about 9.7 square miles), the site still has a city wall with a girth of nearly 7 kilometers (about 4.3 miles). Items unearthed here include rare bronzes, many shell articles, stone wares, jade articles and relics of silos, wells and graves offering plenty of material for the study of the development of Slave Society and Chinese ancient cities.

Situated in the northern part of Zhengzhou, **Henan Museum** is a modern historic museum. From the architectural style of the museum to the treasures there stored, the history presented here will amaze you. The idea for the design of the museum comes from the aspect of the Astronomical Observatory, which looks mysterious and pyramid-like. Cultural relics housed in the museum are definitely precious. There are ancient stone carvings, bronze wares and jade articles of Chu (897 - 951) and workmanship of Ming (1368 - 1644) and Qing (1644 - 1911) dynasties. One item not to be missed is a rare sculpture of an ivory cabbage on which insects are vividly carved. It is said that sometimes one can not tell the ivory cabbage from a real one when glancing at the sculpture. Tourists should take Bus Nos. 42, 61, 69 and 72 to Henan Sheng Bowuguan Stop.

大会主席致辞

尊敬的同仁：

我诚挚地邀请您参加 2007 年 11 月 8-11 日在河南郑州举办的中华医学会第九届骨科学术会议暨第二届国际 COA 学术大会(Chinese Orthopaedic Association, COA)。
