

## Orthopedics Hyperguide

The Orthopedics Hyperguide is a global education portal on the internet. It provides you with free, unlimited access to an online, interactive, educational resource featuring original clinical content, streaming audio and video, customized self-assessment tests and CME. Dr Robert D'Ambrosia and Dr Frank Frassica are the Chief Medical Editors. Prof KS Leung is the Chairman of the Asia-Pacific Regional Advisory Board. This ensures that the contents are of high quality and are appropriate for this audience.

With materials authored and edited by more than 200 internationally recognized experts, you are assured access to the most accurate and relevant information available. New contents are added frequently to reflect the latest topics of interest to you. Orthopedic Hyperguide allows you to explore material at your own pace and convenience. Contents include Online Lectures, Clinical Tutorials, Question Bank, Surgical Videos, Case of the Month, Podcast. It is endorsed by HKCOS and many Colleges and Associations. You can earn CME points on Orthopedic Hyperguide.

Registration is simple and free. You can visit <http://www.ortho.hyperguides.com/> for a 30 day trial. We would recommend that you make a proper registration. For those who have previously registered, you need a renewal code valid till 31 Dec 2008. Please contact Ms Candy Chan at 2632 3074, OLC of CUHK or [candy@ort.cuhk.edu.hk](mailto:candy@ort.cuhk.edu.hk). You will not be receiving unwanted emails and there are no advertisements on Hyperguide.

If you register through Candy, Hyperguide will calculate the number of hours you logged into Hyperguide. This information is passed to HKCOS and you can claim CME points. If you use other people's passwords, the CME points will be credited to that person and not you. Also, the Question Bank keeps your history including your score and which questions you have attempted, so that you can choose just to attempt questions you haven't answered before. Sharing passwords will alter this history to your disadvantage. So please register for your own passwords. Thank you.

Dr CW Chan,

(Board Member, Asia-Pacific Regional Advisory Board, Orthopedics Hyperguide)

Hon. Secretary, HKCOS
